Analyse – Using what you have learn and what you can use to help understand a piece of work

Evidence – work in your own book to show you have completed the assessment objective

Inspired – something that encourages you to try it yourself

Aspects – the individual parts, details or ideas within the work

Compare – look at two pieces of work and explain in what whys they are similar or different to each other

AO1 Researching and analysing

You must how that you have developed ideas by researching and analysing the work of other artists and designers. Research contributes to 25% of your overall mark.

Evidence of good research can be show on full research pages, idea pages and as small thumbnail images placed next to your own work to show which artists link to your ideas.

‘Still Life with Water Jug, by Paul Cezanne’

Example

“I really like this work, because it is unfinished and I can see that Cezanne created his painting with blue outlines. I also like the way

he blocks out the shapes with bold colours and uses complementary colours in the shadows on the plate and tablecloth. The message the artist is trying to show is about beauty, life and vibrant colours. Also, that beauty and colour can be found in everyday objects. This will inspire my own work because I will try to use colourful outlines and complementary shadows”

How to analyse the work of other artists?

What do you think of the work? Why do you like it?

I really like this work, because...

This work inspires me due to...

Which aspects do you find interesting?

The aspects of this work I find most interesting are ...

I also like the way the...
